

Cleaning and Care

- Please always clean the Aroma Stream after each use and before each fragrance change.
- To do so, switch the Aroma Stream off and disconnect it from the power supply.
- Then clean the outer surfaces with a soft cloth.
- Do not use any corrosive, caustic, or abrasive cleaning agents. In case of heavy soiling, you can use a mild dish soap solution.
- Change the fleece cartridge regularly.
- The inside of the unit cannot be cleaned.
- Do not immerse the device in water or other liquids, and only put it back into operation after it has completely dried.
- If you will not be using the device for a long time, please clean it as described above and store it in a dry place.

Safety Advice for the Use of Essential Oils and Fragrance Blends

Please carefully read the instructions provided and the information on the label of your essential oils and fragrance blends.

Disposal

Please do not dispose of this unit in general household waste but instead take it to a recycling collection point. These collection points are regulated according to 2002/96/EC and 2006/66/EC, subject to country and legislation.

We reserve the right to make technical modifications to the fragrance device and changes to the contents of these instructions.

Disclaimer

We accept no liability for damage resulting from incorrect use of this product or caused by the use of essential oils.

- 4 Cable and power plug

How to fill and use the device safely. It is important to follow these instructions!

- This device may be used by persons with reduced physical, sensory or mental capabilities if they have been instructed in the safe use of the device and understand the associated hazards.
- Do not let children play with the device.
- Keep out of reach of children!
- Only use as a fragrance device, not for inhalation.
- Do not use any liquids other than water and 100% natural essential oils.
- When the Aroma Fan is in operation, do not cover the device.
- Keep the device upright, in a safe place, and on a firm surface that will not tip over.
- Only use the device indoors within a temperature range of 50 °F to 86 °F.
- Not suitable for damp areas.
- Do not immerse in water or other liquids.
- If the device has been dropped, unplug it from the power supply.
- After use, switch off the device, pour out the water, clean the device, and store it in a dry place.
- This device is intended for PERSONAL USE ONLY. It must only be used for the purposes described here.
- If an abnormal odor or noise develops, switch off the device immediately and disconnect it from the power supply.
- Only have the device repaired by a qualified person.
- If any damage occurs to electrical parts, especially if the power cable is faulty, do not operate the device. In this case, please contact us or have the device repaired by an authorized, qualified person. Please do not open the device or electrical parts yourself under any circumstances, and do not modify the device.

How to Use

PREPARATION

- Set the Aroma Stream on a steady, even, and hard-wearing surface.
- Ensure that the air flow to the underside is not blocked.
- Remove the fleece cartridge from the packaging.
- Distribute 8 – 10 drops of a 100% all-natural fragrance blend or single essential oil onto the honeycombs of the fleece cartridge.
- Hold the fleece cartridge on the middle bar and insert it into the device mount from below.
- Turn the cartridge clockwise until it clicks into place.
- Never pour essential oil or other liquids directly into the device from above or below.
- To scent the fleece cartridge, always remove it from its holder!
- Plug the connector into the power socket.
- Set the selector switch to Level I or Level II.
- The fragrance spreads quickly throughout the room due to ventilation and cold evaporation.
- The effective area is about 45 m².

RECOMMENDATION

We recommend replacing the fleece cartridge regularly. A fresh fleece cartridge should be used for different essential oils and fragrance blends.

Please use only original replacement fleece cartridges.

These are available from specialist retailers or directly from the PRIMAVERA online shop at www.primaveralive.com.

OPERATION

The Aroma Stream has a selector switch and 2 ventilation levels.

1. Selector switch at Level 0 means that the device is switched off.
2. Selector switch at Level 1 means the device is switched on and the ventilation is operating at 70% power.
3. Selector switch at Level 2 means the device is switched on and the ventilation is operating at 100% power.

IMPORTANT

The Aroma Stream is designed for continuous operation and therefore does not switch off automatically during normal operation.
